 Car pricing and availability subject to change**

Silver Reconditioning: Change oil. Replace air filter, spark plugs, and belts, if needed. Seat covers will be used but in good condition without rips/holes. All cables and linkages are adjusted correctly. Speed set to recommended range. Car is checked to ensure it starts, brakes, and steers correctly. Car is cleaned with a power wash.

30 day warranty on the major drive train (engine, clutches and rear end) performed in-house at GCS.

Transportation to/from GCS is not included in the warranty coverage.

Gold Reconditioning: Change oil. Automatically replace fuel & air filters, spark plugs, and all belts with new. Pull rear drums, inspect brakes and replace pads, if worn. Grease all fittings. Inspect and adjust valves. Remove course logos and decals. Automatically replace both seat covers with new. Make sure charging system is operating correctly and all cables and linkage are adjusted correctly. Car set to recommended speed range. Load test battery and check over entire cart. Inspect wear items on clutches and replace if needed. Carburetor and fuel pump operating correctly. Car is power washed and detailed.

60 day warranty on the entire car covering all parts and labor performed in- house at GCS.

Transportation to/from GCS is not included in the warranty coverage.
